

Mentorship Agreement (Terms of Use)

Our goal for the Canadian Marketing Association (CMA) Mentorship Program for Newcomers to Canada (henceforth Mentorship Program) is that Mentees will make professional connections, get “insider” information and advice, feel more confident in professional communications and networking, learn about job and internship opportunities, and have a “go-to” person to run ideas by.

Mentees are matched with Mentors based on areas of interest. By participating in the program, I agree to the following terms and conditions:

- * I understand that I am voluntarily entering into a mutually beneficial relationship. I agree to meet with my mentoring partner to meet as needed over an academic year.
- * I understand that the majority of the time needed to formally complete the program may be spent mostly in meetings (in person/phone/video conferencing), not emails or text messages. The goal of the program is to have actual conversations about various topics, share knowledge, experience and expertise.
- * I will commit to completing the various activities provided throughout the program. I will take notes and complete the goals and tasks my mentoring partner and I define and will complete an evaluation at the conclusion of the program.
- * I will keep open lines of communication with my mentoring partner and inform them of any changes that may affect my participation in the program. I understand that discussions that occur between my partner and I will remain private and confidential, and no information will be shared with third parties without the express permission of each partner. In relation to that, I do understand that some information entered in the online mentoring platform will not be confidential as it will be available for program managers to review in order to assess the overall program effectiveness and participant satisfaction.

* If I decide to withdraw from the program I will inform my mentoring partner and the program manager.

* There are many benefits for being a Mentor or Mentee but neither party is entitled to any form of payment.

* Mentees are to understand the limits of mentoring in that it is for supporting the Mentee's development. Mentors should acknowledge that they are not counselors and should make a referral for the Mentee when advice is needed for areas outside of the scope.
